SPEAKER: Linda McLarty

INFECTION PREVENTION & CONTROL

Do you have written policies and protocols in place for health and safety, infection prevention and control, managing hazardous waste, emergency response and workplace violence? This is a requirement starting as of January 1, 2012 for your Standards of Practice.

Join Linda in reviewing current infection prevention and control guidelines and take home much of what you need in a convenient, easy to use disk.

SPEAKER: Linda McLarty

ORAL HEALTH

Evidence based clinical recommendations for professionally applied topical fluoride, a review of antimicrobial rinses and what you can do regarding dental unit waterline quality and maintenance.

SPEAKER: Joe Lancaster

AIR POLISHING & ULTRASONIC WORKSHOP

For fast and effective stain and biofilm removal, air polishing should be considered as the #1 procedure of choice. A review of air polishing powders available and techniques to help you master this procedure.
